• On the following pages you can find the objectives, outcomes and promotion criteria for each skill and level. Please note that the objectives must be covered in each class, but are not necessarily tested in a traditional way, and, thus, cannot be expressed as an outcome. In some skills and levels, there are extra optional objectives. The different objectives are noted below.

• To clarify, an **objective** is “a specific curricular element taught through course content and activities. The course objectives guide instruction in order to provide a learning experience for all students and in aggregate address the course goals.” A **student learning outcome** “must be written in terms of observable and measurable language skills. They provide the foundation for assessment by implying what will be assessed and appropriate methods of assessment.”

• Below are the objectives to be covered in each level. The learning outcomes are based on the objectives. Students will be tested on the outcomes and in the course syllabus, should be informed that they should be able to demonstrate ability in those areas, and mastery is required in order to be promoted. The student reports will only have the outcomes listed. Some objectives are optional (noted below), and some are required, but not easily assessable.
