

Health Insurance Information

Students with F or J visas are required to show the ELI proof of health insurance coverage for illness or accidental injury. You will not be allowed to attend classes without it. You can either buy insurance in the US or buy it in your country.

We strongly recommend that you buy insurance when you arrive at the university. You can buy a UnitedHealthcare plan for \$187 per month, or you can look at other plans on the UF International Center website at <https://goo.gl/fiHhwt> (the cost of these plans varies depending on the student's age).

If you choose to buy an insurance plan in your country, it is a longer and more difficult process to use it here. In fact, it is likely that you will buy insurance in your country, complete the UF waiver form, and then learn from our Health Compliance Office that it is not acceptable. In that case, you must buy UF insurance anyway!

Again, we recommend that you wait to buy insurance until you arrive at the ELI. However, if you choose to buy insurance in your country, your insurance company must verify that your plan meets the below requirements.

These requirements are not flexible. If your insurance company cannot prove that your plan meets the requirements, you must buy insurance through the university.
